Auzoo Billahi minAshaytan irRajeem, Bismillah ir Rahman ir Raheem
Every technology comes, as an understanding, for a very deep reality.
there's a continuous signal being broadcasted, from a higher conscience.
That higher conscience; that reality of the soul is always in The Divinely
Presence. It's at the station where the transmission is coming out.
God Didn't Give you your gift, to go and destroy it. The light of my soul
that put upon my body, is so buried deep within me, and lost its ability to
connect to the Wifi. The more you time out, and the more you're
disconnected. All your choices will be wrong in life. And every type of
difficulty begins to visit the servant. As we see difficulty around us, when
you begin to see more and more of these craziness upon the earth. Their
lies and deceits. Hide stay out of the way. People are not doing well that's
why then, these meditations are, a survival mechanism. Tafakur, and
contemplation, is not "Hug a tree". But it's to connect to a higher power.
There's a power much more powerful than anything about myself. And
I'm submitting my life to that power. Things I can do , I try to do. But I
quickly understand the things I've no power, and authority over, and I
submit to it. Allah ('azza wa jal's) Power - God Almighty's Power, Is
everywhere. His Wi-fi is, is a signal that is broadcasting, and, and
sustaining every single atom. If you can understand the one, you'll the
understand the whole because this universe is just more atoms. From one
atom, there's a nucleus. That nucleus is a power. It is the source of
power. Allah Put within that nucleus, love. What they call, mass
attraction. That attraction What. Qul. Qul inni kuntum tuhibunullah.
fatabiouni. Tell them. Allah Talking to the electrons. If they love Me,
fatabiouni. This for people who understand Quran, and depth of the
reality of Holy Quran. God Is Speaking, He's Speaking to which that is
eternal. Not temporary. Allah ('azza wa jal) Not Talking about the physical
world. He's Talking about that which is eternal. Tell them. Tell this

creation that is in existence, if they want My Love; mass attraction is now being built. If they want My Love, this emanation of Love is now Emanating. The electron is now then being commanded, to follow the nucleus. He's being commanded to follow the nucleus. As a result of the command, the electron is, hop. Going. Not even a thought. There's no ego at that level. There's no understanding that we possibly can understand, of the force that is attracting the electron into the centre. What they, they call is an immense force. 'Cause if you break it, you're going to have big problems.

The immensity of the love, the electron has, to reach the centre. As a result of wanting to come into the centre, there's a weaker force. Another weaker love, that comes and says: Oh oh, not right now. Otherwise, the attraction would come, it would collapse, and this life would be over. So there's attraction that pulling it into the centre. It's All Divine Love. There's another force that saying, no, like a, like a love. Like a love affair. Not right now. Allah ('azza wa jal) Saying: No, no. You can't come that quick. You can't just come right into the nucleus. So there's another force, that keeps it at bay. As a result of the force that wants to bring it for love, and the equal love, little bit lesser. They call a lesser force. It pushes it away. This now creates the desire of the electron. So the electron doesn't stop. Because of the force and the pull of love, it's now moving, right. There's a centrifugal movement. As a result of this immense love, it's now going to begin to move to look to where it can come in. It's a love affair. That it wants to get in. it's not going to stop. It's going to be moving. This love that coming, it begins to make the electron to be lost in spinning. Spinning, spinning. As a result of the spin, you have now upward thrust. Attraction, centrifugal force. Hoo, hoo, hoo.

That's why rah, when we went to Sayyidina Jalaluddin, that was the Samaa. The Sufi dance was his way of teaching that Ayat Al-Kareem. That if you want to imitate your electrons, you've to feel the love, and your nucleus that God gave to us. Our physical nucleus is our heart. And your body is the electron. Your body is that which is negative. That which is eternal within you, is the light that come within your heart. So make your electrons. Make your body to spin around your heart. So when they spin, and spin, and spin the electrons, it becomes now upward thrust. So this whole hologram of life that we live, and every planet, and every creature. Everything upon it, is a hollow space. And it's just existing as a hologram. And that's why Allah ('azza wa jal) Says, this life is but an illusion. If I take this spin, everything collapses to a few atoms that nothing will appear. It's whole appearance is based on love. Hubb. With the "Ha" and

the "Ba". This is from the ocean of Hayat, and the Bahru Qudra, and the Ba that "Ba' begin to open all of the secrets of creation, and become Bismillahir rahmanir raheem. So this whole illusion of life, and the hologram of our life, is based on that reality. If you understood, truly understood one atom, you understood now the whole of the universe is like that. So then this from the nucleus, to the electron, is a vibration of love that comes out. It's the Wifi Of Divine. It's A Wifi That Comes Out, and Connects to everything. Everything is now manifesting from THAT Power Coming Out. Everything is taking from that, la ilaha illallah Muhammadun Rasulullah (s). And that's why they were making all these circles of Muhammadun Rasulullah (s), to show that these are the atom. The reality of the atom, is that Divinely light in the centre, Reaches to everything. It sustains everything. Allah ('azza wa jal) teaching us: You have a nucleus, and a centre for everything. Centre of your galaxy is that sun. The centre of your being is your heart. And the centre of your Deen, and your religion, is the Kaaba. And the Kaaba represents the nucleus, and a force of Divine Power. That when you come to the Kaaba, take all that clothes off. Wear two white robes, and be an electron. 'Cause the electrons are negative. The Kaaba is positive. And you're coming and circumballating, and imitating that reality. That My Lord, I'm just a electron, coming back to my origin. My electrons are already doing this. Anybody doesn't want to make Hajj, you're already doing it. The earth is making a Hajj around the sun. The sun is the superior source because it's the light. The planet is devoid of light. Means, that which in life is always superior, is the light.

Shaykh Nazim, Sultana Awliya, described that, when you distance yourself from rijal'Allah, from awli'Allah, you've distanced yourself from God's mercy. And that's all that the, the evilness wants. Distance yourself from any type of authority or spiritual training on how to connect with your heart. So that you can enter into oceans of despair. So God's mercy, is there are people on earth, who have been trained. And as a result of their training, their life is to train other people. Free of charge. It's not something you pay for. They say, okay, pay this course, three thousand

dollars, you become a master of, the third, thirty-third degree. We went somewhere, and they said their cat was a master of Reiki healing. It's not that. It's something that has to be given freely. There's no compulsion in it. And it's based on your choice. But it's a lifesaver at this time, in our lives. A stress reducer in our lives. And they come to teach, as much as you're on, and your cup is full, what God is going to send to you. So every spiritual master, from every spiritual background taught, empty your cup. It's actually your head causing all the problems. Your over active mind, it doesn't know anything. Your mind and your head, your brain, is a piece of mushy meat inside a box. It hasn't seen anything. It's a sponge. And all it does is absorbs. You only know from what you've been conditioned. What you've been told. It just absorbed. It absorbed. It absorbed until it made you know who you are. It has never seen anything. Why did you believe in it ? So then awliya come and teach, oh, don't, don't trust that head. Shut the head off. That's why the first zikr: La ilaha illallah. Our meditation, is based on being nothing. I'm nothing. I'm nothing. Whatever my electrons on the outside, are making me to think that I'm something, that's not the reality. That is the illusion that's spinning. When Allah Stops the spin is your grave. Everyone tastes of death. How much they're manifesting, how wealthy they are. How powerful they are. What potions they have. Everybody goes to the same dirt. Then what happen to those atoms ? Ashes to ashes, dust to dust. The spin stopped. The life ended, and they went down. But there's a soul, and a light, and a reality within them, that was free from their mass. So 'E' equals MC squared, is a Sufi formula. If you're too much in your body, too much with your physicality, you're not going to feel any energy on that side. So then the whole training was, reduce your mass by yourself. The importance of your mass by yourself. When you train with them, they'll begin to teach you and show you all your bad characteristics. If you can suppress them, and bring them down, your mass actually begins to deflate. As your mass deflates, now your two lights will begin to come out. If your characteristics are good, the superior light, angelic light, will begin to

suppress the bad light. How do these people go out and be of service ? Because that fire of zeal is within them. Not the fire of anger which they want to burn everything. They didn't let their destiny to head in that direction. And that was through their tafakur their meditation and contemplation. That how am I going to balance my scale ? How am I going to bring that down ? How am I going to bring all these lights ? I begin to lower myself, lower myself, lower myself. These praising in these associations, are emitting a tremendous Wi-fi. 'Cause they're from these servants, that have connected to that power. As soon as they begin the associations, they're opening an appearance and an audience into the presence of Sayyidina Muhammad (s). A ba'ab begins to open. As that opening comes, then the fa'iz and the energies are flowing. Doesn't matter if it here, or ten thousand miles. Their fa'iz is coming all the way from the heavens. Beyond the realm of the speed of light, faster than the speed of thought. From that realm, they're pulling in light from the hearts, and begin to reflect like a satellite. Connect with that signal; feel the signal. Bring that light. Make your prayers. Make your connection. Put all that energy upon yourself. Bring yourself down and your angry light is being deflated. How do you die, before you die ? Ah, stop using your mouth. Let people insult you. Who cares. Let people do whatever they want, other than abuse you physically. You don't have to answer back. You don't have to give a response to everything. That, Ya Rabbi, My Lord, I'm trying to inflate myself. Not inflate myself. I want to be nothing. I want to be nothing. I want to be nothing. And this formula begins to work. We pray that Allah ('azza wa jal) Bless us, Dress us, and Give us a deeper understanding of Qul inni kuntum, tuhibbunallah fattabiouni, is a power and an essence of what's happening. Subhana Rabbika Rabbil izzati ama yasifun. Wa salamun al mursalin. Wa hamdulilahil Rabbil Alameen. Bi hurmati Muhmmad Al-Mustafa wa bi sirri surat Al-Fatiha.
